

2009

2009-11-22 **new homepage will come soon**

Soon, a completely new homepage will go online. We are working hard to get our project finished until christmas. The new page will include online-booking and lots of inspiration for your holidays.

2009-02-21 **fantastic winter**

This year's winter was especially nice. we had lots of snow until mid of april. As a special service Frank prepared long-distance skiing tracks right from the cottages to the nature reserve. In february and march some curious moose visited our camping.
